DISCOVER THALASSOTHERAPY

The curative effects of thalassotherapy on the vascular, cardiorespiratory and musculoskeletal systems have been known for a long time and its benefits have been scientifically proven.

Sea water, whose composition is similar to that of blood plasma, contributes to the balance of the body. In addition, it delays skin aging thanks to its antioxidant properties and its ability to eliminate toxins.

Its benefits are also recognized in the area of rest because it contributes to deep and restorative sleep as well as a state of balance, serenity and well-being.

MARINE PATH AND FITNESS ROOM

Immerse yourself in an ocean of sensations between bubbles and water jets. Thermal journey through six heated seawater swimming pools, equipped with hydromassage beds and benches, jacuzzi and underwater jets at different levels of the body. Sauna, hammam and footbath.

A unique experience! (Try combining it with gym)

OUR BRANDS

The laboratories with which we work have been carefully selected for the quality of their products and their natural composition, and to integrate criteria of sustainability and respect for the environment into their processes.

With our brands, we share the philosophy, respect and love of the sea and nature. With their products we offer you a marine experience, a sensory journey, an incomparable source of well-being.

Thalgo's philosophy relies on marine intelligence for the development of its products.

Its laboratories, specialized in treatments based on algae and marine extracts obtained through procedures guaranteeing the perpetuity of its nutrients, focus on projecting the energy of the sea through its products and on the development of protocols designed for overall beauty, body and mind. All Thalgo products have a purely natural composition.

For nearly 50 years, Phytomer has transformed the sea into skin care that helps reveal authentic, natural and living beauty.

Its laboratories are entirely dedicated to marine biotechnologies. They practice marine breeding in the laboratory to increase its effect on the skin, while preserving and respecting marine biodiversity. Phytomer develops its products using environmentally friendly processes.

Pioneer in the development of natural and ecological cosmetics, as well as protocols based on the scientific principles of aromatherapy and herbal medicine. Arômes Natur is based on a holistic concept of health which includes nutritherapy, nutricosmetics and treatments with effective ingredients for the balance and beauty of the skin.

They use exclusively certified ecological natural plant raw materials.
